## Property Acquisition and Sale

Rocky REA has seized the opportunity to acquire property strategically located at 4916 - 43 Street, Rocky Mountain House, just two doors south of our current location. This property provides an immediate solution to the current space requirements of our entire organization. In addition, it will facilitate our immediate goals for growth and diversification. It also allows for the centralized positioning of our Computer Services Department, which will now be conveniently located in our current building.

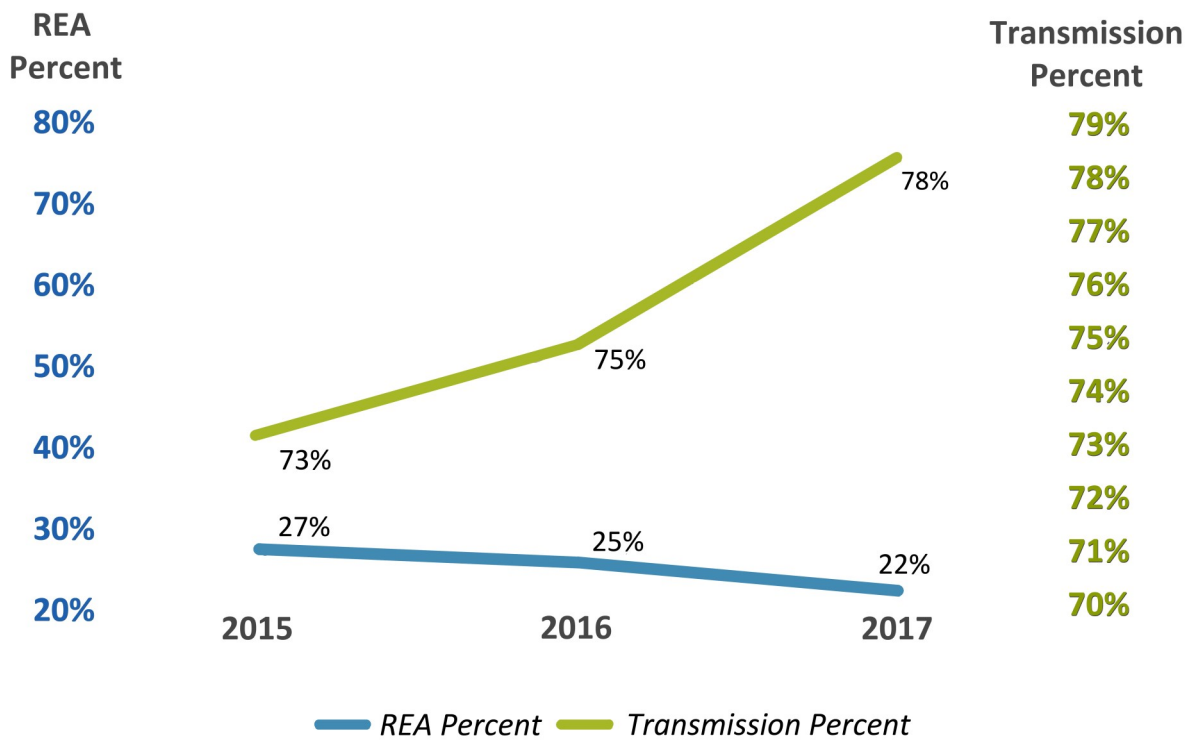

This property presents a host of other advantages, especially financial, over our initial plan to build a new facility on property located North of Rocky Mountain House. As a result, the Rocky REA Board has made the decision to sell that property.
