

Reconnection Fees - Collections	
Charge Description	2024
<p>Reconnection Fee (Business Hours) This fee is applicable when reconnecting a site that was disconnected due to nonpayment, when payment has been received between 8:00 AM & 3:00 PM on a business day.</p>	\$233.00
<p>Reconnection Fee (After Hours) This fee is applicable when reconnecting a site that was disconnected due to nonpayment, when payment has been received between 3:00 PM & 4:00 PM on a business day.</p>	\$287.00
Disconnection and Reconnection Fees	
Charge Description	2024
<p>Idle to Active (Non Subdivision) This fee is applicable when a member requests to re-energize a site that is not within a BMPC serviced multi-lot residential subdivision.</p>	\$105.00
<p>Idle to Active (Subdivision) This fee is applicable when a member requests to re-energize a site that is within a BMPC serviced multi-lot residential subdivision.</p>	\$277.00
<p>Rush Energization Request Fee This fee is applicable when BMPC receives a rush energization request. An energization request is considered rush if the member requested due date is sooner than the standard response time. If this fee is for an idle to active service, it replaces the standard idle to active (non subdivision) fee.</p>	\$233.00
Other Fees	
Charge Description	2024
<p>Breaker Upgrade Fee This fee is applicable when a request to replace a Rate 210 (Farm) site's distribution breaker with a larger capacity breaker has been received.</p>	\$0.00
<p>Breaker Downgrade Fee This fee is applicable when a request to replace a Rate 210 (Farm) site's distribution breaker with a smaller capacity breaker has been received.</p>	\$233.00
<p>Non Sufficient Funds (NSF) Fee This fee is applicable for all payments dishonoured, rejected or reversed by any financial institution for any reason. This will be charged directly to the defaulting party.</p>	\$23.00
<p>Tree Trimming (Per Square Meter) This fee is applicable when a member requests the trees surrounding the powerline on their dedicated tap be trimmed instead of full removal.</p>	\$3.96 per Square Meter
<p>Member Requested Manual Meter Read Fee This fee is applicable when electronic polling of the meter is not possible due to the Member's request for a nonstandard (AMR) meter and manual meter reads, and other non-standard operational support activities are therefore required.</p>	\$310.00

On-Site Meter Accuracy Test Fee This fee is applicable when a request to test a meter is received. The fee will be refunded by BMPC if the meter is determined by BMPC to be faulty through no fault of the Member. This fee may be charged directly to the Member.	\$250.00
Line Construction Fees	
Charge Description	2024
Quote Redesign Fee: This fee is applicable when a Project Requestor requires a re-design of a project or more than 2 designs, prior to accepting the project (signing a construction agreement and payment in full). During the first site visit, BMPC can provide two design options for free. Should the project requestor accept the quote, the Quote Redesign Fee is applied to the total project cost. If the project requestor does not accept the quote, then the quote redesign fee is nonrefundable.	\$157.00
Security Deposit for New Service/Service Modification Construction A security deposit will be collected upon signing of the construction agreement. If there is a member contribution the security deposit will be credited at the time of payment. If the project is fully covered by Association Credits, Prepaid Line Share, and/or Early Maintenance Credits the security deposit will be refunded after construction is completed. If construction does not proceed, the security deposit will not be refunded.	\$800.00
Subdivision New Service Fee This fee is applicable when a Member requests their lot be energized for the first time in a BMPC serviced multi-lot subdivision.	\$505.00
Distribution Service Dismantle Fee (per pole) This fee is applicable when a member requests the permanent disconnection of their service. The distribution service dismantle fee is calculated per pole (minimum one). All poles that are dedicated to this service are included in the calculation. All outstanding balances and the total dismantle fee must be paid in full to BMPC before a dismantle of service can be completed	\$184.00
Used Pole Sale (Brown) Used poles with a condition deemed "Brown" are free. Transport is the responsibility of the requestor; poles must be picked up at BMPC's Ops yard. Subject to availability and on a first come, first served basis. No refunds.	\$0.00
Used Pole Sale (Green) This fee is applicable to used poles with a condition deemed to be "Green". Transport is the responsibility of the requestor; poles must be picked up at BMPC's Ops yard. Subject to availability and on a first come, first served basis. No refunds.	\$212.00
